GETTING BACK IN THE GAME

The new Marshall Sports Medicine Institute is advancing the standard of sports medicine care in the Tri-State.

Driving down Third Avenue in Huntington, the massive steel building just east of Joan C. Edwards Stadium is hard to miss. Marshall University's new \$25 million practice facility houses a 120-yard football field, outlined by a six-lane track for hosting indoor meets, as well as the Marshall Athletics Hall of Fame, celebrating the university's rich tradition of athletic excellence and showcasing memorabilia from "We Are Marshall." The facility includes an academic center for student-athletes, complete with 120 top-of-the-line computers, tutoring rooms, study areas and a small auditorium. It is also home to the state-of-the-art Marshall University Sports Medicine Institute, a comprehensive sports medicine program that will benefit not only the athletes of Marshall University but also the Tri-State's active and health-conscious population.

medicine research to help athletes and the general population both now and in the future.

"Being an academic institution, we are going to do a significant amount of research," Dr. Giangarra said. "We are presently involved in some concussion studies, and we are going to be doing some neurophysiological testing, testing of injectable medications and stem cell research."

The orthopedic surgeons, primary care physicians, physical therapists and other health professionals of the Marshall Sports Medicine Institute will see patients of all ages, from pediatric to geriatric, from "weekend warriors" to elite athletes. The region's only academic sports medicine team provides the same high-quality care for all sports-related injuries and illnesses, whether they occurred during a day of yard work or during a Division I athletic event.

Vice Chairman and Chief of Marshall Athletics and Orthopedic Sports Medicine at the Marshall University Joan C. Edwards School of Medicine. "The doctors and health professionals we are going to have under one roof will be second to none."

"This is really an exciting time for sports medicine in our community. The doctors and health professionals we are going to have under one roof will be second to none."

— **Chuck Giangarra, MD**, Professor, Vice Chairman and Chief of Marshall Athletics and Orthopedic Sports Medicine at the Marshall University Joan C. Edwards School of Medicine.

The Sports Medicine Institute will encompass all aspects of sports medicine, including orthopedics, primary care, physical therapy, nutritionists,

podiatrists, aquatic therapy, performance enhancement, chiropractic

care and eventually sports psychology. It will also house leading-edge sports

"This is really an exciting time for sports medicine in our community," said Chuck Giangarra, MD, Professor,

Taking Care of the Herd. Taking Care of You.

FREE SPORTS MEDICINE SCREENING CLINICS FOR ALL AGES

If you're suffering from a sports injury or ailment, you can receive a free evaluation from a Marshall Orthopaedics Sports Medicine physician – the same physicians who provide exclusive orthopedic sports medicine services for Marshall University athletes.

A free sports medicine screening clinic is conducted each Saturday*, from 8:30 to 10:30 a.m., on the ground floor of Marshall University Medical Center (on the Cabell Huntington Hospital campus). The clinic is open to the active, health conscious and athletic population of all ages with sports injury concerns, including runners, golfers, tennis players and youth, scholastic and recreational athletes.

Treatment will not be provided, but patients will be evaluated and given medical advice. No appointment is necessary and patients will be seen on a first come, first serve basis.

*Free screening clinics will be provided every Saturday from August 9, 2014 through May 16, 2015 (except November 29, December 27, January 3 and April 4).

For more information, call 304.691.1491 or 304.691.1490.
